Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science

2020 – 2024

[CGPA - 7.85]

G.D Goenka Public School

Higher Secondary Certificate

2018 - 2020

[CGPA - 8.1]

Relevant Coursework

- SQL and Databases
- Data Visualization
- Machine Learning
- Big Data
- Data Cleaning
- Business Analytics
- Statistical Analysis
- ETL Processes

Experience

Proclink Consulting Services

Data Analyst

September, 2024 – Present

Hyderabad, Telangana

- Refined SQL queries for efficient data extraction, transformation, and validation for a foreign client.
- Analyzed credit card transaction data to detect trends, assess risk, and support strategic decision-making.
- Tracked and evaluated late fee submissions, campaign performance, and customer payment behavior using SQL.
- Utilized SQL, Python, and data visualization tools like Power BI and Tableau to extract, analyze, and present insights, for better decision-making.

VIVO Mobile Private Limited

Data Analyst Intern

June 2024 – August 2024

Lucknow, Uttar Pradesh

- Analyzed sales trends and market performance across different Vivo product series, providing desired results for decision making.
- Processed and refined large datasets using SQL and Python for further analysis.
- Designed and implemented interactive Power BI dashboards to track product sales, refurbished vs. new device trends, and pricing insights.
- Identified key sales drivers, optimized reporting structures, and enhanced data visualization for better business intelligence.

Projects

PROJECT1 : MYTHIC VISION | *Team Lead | ML, DL, AI*

January 2023

- Designed and developed an AI-powered solution to help foreign tourists explore and understand Hindu deities during their visits to India.
- Created a custom dataset of 10 Hindu gods and implemented 5 different ML models for accurate classification.
- Achieved approx 97 Percent model accuracy through data preprocessing, feature engineering, and algorithm optimization, deployed the model on a user friendly mobile application.
- Authored a research paper on MythicVision, which was published on Nature.com Scientific Reports, showcasing the uniqueness and cultural significance of the idea.

PROJECT2 : VIVO Global Retail Dashboard | *Team Lead | Python, SQL, DAX*

July 2024

- Led data cleaning and preprocessing using Python and SQL to refine large datasets, for meaningful insights.
- Designed and developed a 7-sheet interconnected dashboard in Power BI, for in-depth sales and performance analysis.
- Implemented advanced DAX queries and custom measures to optimize data modeling and tracking of key business metrics and trends.

Technical Skills

Languages: Python, Java, R, HTML/CSS, JavaScript, SQL

Developer Tools: PyCharm, SQL Workbench, Snowflake, Athena, JupyterNB, Power Bi, MS Excel, VS Code

Certifications: Artificial Intelligence Analyst Certificate (IBM Externship), TensorFlow for AI, ML and DL Course Certificate (DeepLearning.AI) Databases and SQL for Data Science with Python (IBM)

Leadership / Extracurricular

Blockchain Club: Spearheaded the Tech team as the Technical Lead of the Blockchain Club, effectively leading and managing team members.

Football: Professionally engaged in football for six years; through my experience, I cultivated teamwork, discipline, and leadership
